

Exercise 2.2

Extended Pentatonic Scale in 5th Position and 8th position

We will now add notes in the 8th position. Take note in *Number 1* that we slide our ring finger from the 7th fret to the 9th fret. This allows us to transition into 8th position on the 2nd string. In the descending scale, we transition back to 5th position by landing our ring finger back on the 9th fret and sliding it back down to the 7th. From here we finish out the exercise back in 5th position.

1.

Slide your ring finger to the 9th fret and land your pointer finger on the 8th fret

2.

3.
